

BEFORE IT IS BORN.

Some Startling Statements of General Interest.
Dr. Oliver Wendell Holmes, on being

asked when the training of a child should begin, replied, "A hundred years before it is born."

Are we to infer from this that this world is not suitable for the comfort of the race 100 years from now?

Is this wonderful generation the natural result of the proper diet and medicine of 100 years ago?

It is conceded in other lands that most of the wonderful discoveries of the world of the last century have come from this country. Our ancestors were reared in log cabins, and suffered hardships and trials.

But they lived and enjoyed health to a ripe old age. The women of those days would endure hardships without appearing fatigued that would startle those of the present age.

Why were they?

One of the proprietors of the popular remedy known as Warner's safe cure, has been faithfully investigating the cause

and has called to aid scientists as well as medical men, expressing up to him the fact that there cannot be an effect without a cause. The investigation disclosed the fact that in the olden time simple remedies were administered, compounded of herbs and roots, which were gathered and stored in the lofts of the

What were the remedies? What were they used for? After untiring and diligent search they have obtained the formulas generally used for various disorders.

time preparations. And, the people of this age, who have been treated, under modern medical schools and codes, with poisonous and injurious drugs. This has been earnestly pursued, until they are convinced that the preparations they now call Warner's Log Cabin remedies are what our much abused systems require.

frankly convinced that they do not consider the salary value of so much value is itself as it is the combination of the various ingredients which together work marvelous upon the system. They also have preparation for other diseases, such as "Warner's Log Cabin cough and consumption remedy," "Log Cabin hops and blood remedy," "Warner's Log Cabin..."

that they have a cure for the common disease of catarrh, which they give the name of "Lose Your Blood Cream." Also a "Lose Catarrh Pills," which they are confident will supplement others, and a liver pill, so be used separately or in connection with the other remedies.

reap a benefit from the investigations, and that the proprietors will not be embarrassed in their introduction by dealers trying to substitute remedies that have been so familiar to the selves of our druggists. This line of remedies will be used instead of others. Insist upon your druggist getting them for you if he hasn't them yet in stock, and we feel confident that these new remedies will

A DOG-FACED GIRL.

Her Expression, Gait and Speech Have
 Canine Peculiarities.

In a lonely cabin on the banks of Cassic creek, in the town of Walett, Cortland county, may be found a remarkable freak of nature, known through the country round about as the "dog-faced girl." Here mother and daughter, named respectively Odilia and Sarah Wells, live alone and in poverty, gaining a precarious

The peculiarity of the dog-faced girl's features lies in the chin, mouth and nose, which protrude from the head and neck to an excessive and unnatural degree, and in a shape strikingly like a dog's snout or muzzle. Obviously she is well formed

Up to about ten years old the girl persisted in running about on all fours, and in this posture she could outrun any child of her age. Her vocal utterances also

She has a constant stream of visitors, including philosophers and scientists, as well

turning physicists and scientists, as well as ordinary curiosity monsters, and these are told truthfully that her father, who died shortly after her birth, was in no way malformed or peculiar. Her mother is good-looking in feature and figure and ordinarily intelligent. None of the dog-faced girl's visitors have as yet suggested any plausible theory of the freak which gave her to the world.

St. Louis' New Bridge.

ST. LOUIS, MO., Oct. 7.—Plans for the Merchants bridge to span the Mississippi at St. Louis have been accepted, Morrison and Carrell of New York being the successful draughtsmen. The plans will

be forwarded to the Secretary of war for approval the present week and work will be commenced at an early date. The bridge proper will be 2425 feet in length. Each of the three spans will measure 822 feet and the approaches each 425 feet. The estimated capacity will be three tons per lineal foot.
